

SARA TITLE III Consolidated List

This consolidated chemical list includes chemicals subject to reporting requirements under Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). The list includes chemicals referenced under five federal statutory provisions, as follows:

1. SARA Section 302 Extremely Hazardous Substances (EHS), the presence of any of which, in sufficient quantities, requires certain emergency planning activities to be conducted. Releases of these substances are also subject to reporting under Section 304 of Title III. The Threshold Planning Quantity (TPQ) is shown under Column 302.

EHS RQ or the reportable quantities of Extremely Hazardous Substances are subject to reporting under Section 304 of Title III. If a final RQ has not been assigned under CERCLA to a chemical listed under Section 302, a statutory RQ of 1 pound applies for Section 304 reporting. The EHS RQ column lists the 1-pound statutory RQ for EHSs not listed under CERCLA.

2. CERCLA Hazardous Substances (RQ Chemicals), releases of which are subject to reporting to the National Response Center under the Comprehensive Environmental Response Compensation and Liability Act of 1980 (CERCLA or "Superfund"). Such releases are also subject to reporting under Section 304 of Title III.

3. SARA Section 313 Toxic Chemicals, emissions or releases of which must be reported annually as part of SARA Title III's community right-to-know provisions. Inerts and pesticides subject to Section 313 are indicated with an "X."

4. RCRA Hazardous Wastes from the P and U lists only (40 CFR 261.33), which consist of lists of specific chemicals. RCRA

hazardous wastes consisting of waste streams of the F and K lists are not included here; such waste streams are also CERCLA hazardous substances. The listing is provided as an indicator to companies that they may already have data on a specific chemical that can be used for Title III reporting purposes. Appropriate hazardous waste codes are indicated in the RCRA column. For more information, see the RCRA section on page D 53.

5. CAA Section 112(r) List of Substances for Accidental Release Prevention was published in the Federal Register on Jan. 31, 1994 (40 CFR Part 68). Threshold Quantities (TQ) for chemicals subject to the accident prevention provisions of the Clean Air Act are listed in the CAA column.

There are six columns in the consolidated list corresponding to these five statutory provisions.

If a chemical is listed as an extremely hazardous substance under Section 302, its TPQ (Threshold Planning Quantity) is given for those chemicals that are CERCLA hazardous substances.

A "313" in the column for Section 313 indicates that the chemical is subject to reporting under Section 313 and Section 6607 of the Pollution Prevention Act under the name listed. In cases where a chemical is listed under Section 313 with a second name in parentheses or brackets, the second name is included on this consolidated list with an "X" in the Section 313 column. An "X" in this column also may indicate that the same chemical with the same CAS number appears on another list with a different chemical name.

The complete list is available from EPA, Office of Pesticides and Toxic Substances. □

Chemical Name	CAS Number	Section 302 TPQ (lbs) ¹	Sect. 304 EHS RQ (lbs) ²	Sect. 304 ³ CERCLA RQ (lbs)	CAA (112r) TQ ⁴	Section 313 ⁵	RCRA Code ⁶
Abamectin	71751-41-2					313	
Acenaphthylene	208-96-8			5000			
Acetic acid, (2,4-dichlorophenoxy)-	94-75-7			100		X	U240
Acephate	30560-19-1					313	
Acetonitrile	75-05-8			5000		313	U003
Acifluorfen, sodium salt	62476-59-9					313

Aldrin	309-00-2	500/10,000		1		313	P004
Allyl alcohol	107-18-6	1000		100	15,000	313	P005
Aluminum phosphide	20859-73-8	500		100			P006
Ametryn	834-12-8					313	
4-Aminopyridine	504-24-5	500/10,000		1000			P008
Amiton	78-53-5	500	1				
Amiton oxalate	3734-97-2	100/10,000	1				
Amitraz	33089-61-1					313	
Amitrole	61-82-5			10		313	U011
Ammonia (anhydrous)	7664-41-7	500		100	10,000	X	
Ammonium chloride	12125-02-9			5000			
Ammonium nitrate (solution)	6484-52-2					313	
Ammonium sulfamate	7773-06-0			5000			

1 Threshold Planning Quantity: Amount of toxic substance present that requires certain emergency planning activities to be conducted.

2 Reportable quantity amount (in pounds) requiring immediate notification of emergency officials if release is made.

3 Reportable quantity amount releases (in pounds) subject to reporting to the National Response Center.

4 Threshold quantity for chemicals subject to accident prevention provisions of the Clean Air Act.

5 313 indicates chemical is subject to reporting under Sections 313 and 6607 of Pollution Prevention Act. "X" indicates second chemical name is included elsewhere on this list. "X" may also indicate same chemical with same CAS number appears on another list with different chemical name.

6 "P" indicates acutely hazardous commercial chemical products. "U" indicates toxic and other commercial chemical products. "D" indicates hazardous based on process knowledge. A "1" indicates possible reactivity characteristic.

Fenthion	55-38-9					313	
Fenvalerate	51630-58-1					313	

1 Threshold Planning Quantity: Amount of toxic substance present that requires certain emergency planning activities to be conducted.

2 Reportable quantity amount (in pounds) requiring immediate notification of emergency officials if release is made.

3 Reportable quantity amount releases (in pounds) subject to reporting to the National Response Center.

4 Threshold quantity for chemicals subject to accident prevention provisions of the Clean Air Act.

5 313 indicates chemical is subject to reporting under Sections 313 and 6607 of Pollution Prevention Act. "X" indicates second chemical name is included elsewhere on this list. "X" may also indicate same chemical with same CAS number appears on another list with different chemical name.

6 "P" indicates acutely hazardous commercial chemical products. "U" indicates toxic and other commercial chemical products. "D" indicates hazardous based on process knowledge. A "1" indicates possible reactivity characteristic.

Zinc phosphide (conc. > 10%)	1314-84-7	500		100			P122, D003
Zinc phosphide (conc. ≤ 10%)	1314-84-7	500		100			U249
Zinc silicofluoride	16871-71-9			5000			
Zinc sulfate	7733-02-0			1000			
Zineb	12122-67-7					313	

1 Threshold Planning Quantity: Amount of toxic substance present that requires certain emergency planning activities to be conducted.

2 Reportable quantity amount (in pounds) requiring immediate notification of emergency officials if release is made.

3 Reportable quantity amount releases (in pounds) subject to reporting to the National Response Center.

4 Threshold quantity for chemicals subject to accident prevention provisions of the Clean Air Act.

5 313 indicates chemical is subject to reporting under Sections 313 and 6607 of Pollution Prevention Act. "X" indicates second chemical name is included elsewhere on this list. "X" may also indicate same chemical with same CAS number appears on another list with different chemical name.

6 "P" indicates acutely hazardous commercial chemical products. "U" indicates toxic and other commercial chemical products. "D" indicates hazardous based on process knowledge. A "1" indicates possible reactivity characteristic.
