Welcome to *AcqWeb*, sister publication of [ACQNET](#) and the gathering place for librarians and other professionals interested in acquisitions and collection development. For those unfamiliar with our terminology, we are the staff who select and purchase the books, serials and related information resources for our libraries. If you are a newcomer to this site, more detailed information can be found in our [Editorial Policy](#).

AcqWeb began in 1994, and continues to grow as the Web grows. We aim to be international in our scope and approach.

Contents

- I. [Web News for Acquiring Minds](#)

This portion of *AcqWeb* is an international directory of publishers and vendors used by libraries. It links to their Web sites and email addresses. It is maintained for the benefit of the library community, in particular, acquisitions, collection development and serials librarians.

For additions, corrections and suggestions, please see [Contact Information](#) for updating *AcqWeb*.

Home: Verification

A word of explanation: "verification tools" are resources used to determine the existence, imprint and other bibliographic information needed to order specific titles. Typically, they are library catalogs, bibliographic services and in print lists.
