Blended Learning with Web 2.0 Tools

Wahyu Purnomo

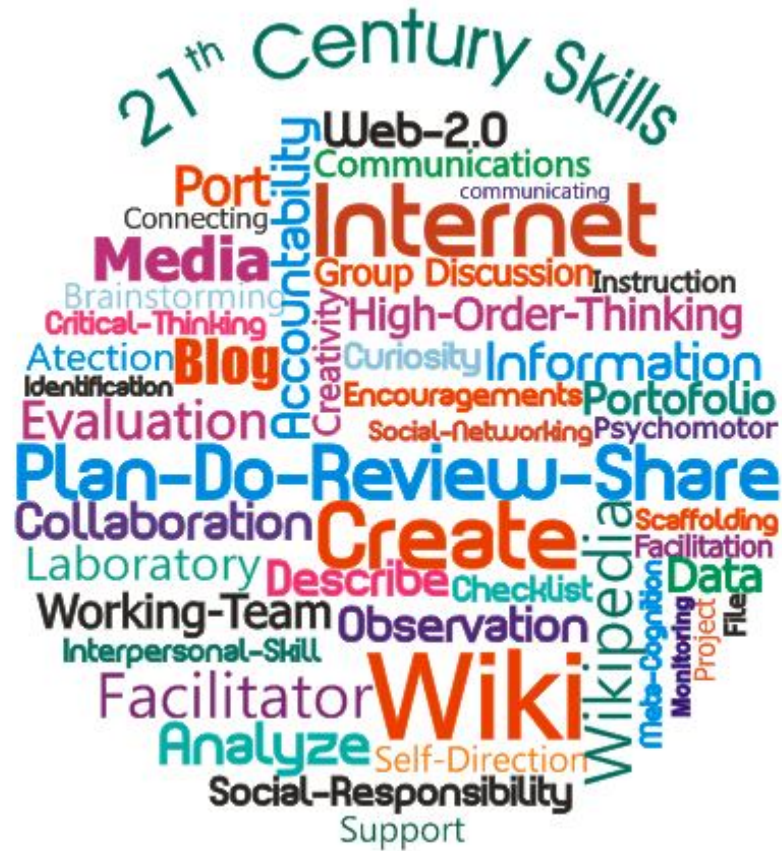

IGI Alliance – eLearning Multiplier

<http://wahyupur.wordpress.com>

Blended Learning with Web 2.0 Tools

- ⦿ What is Blended Learning?
- ⦿ What is Web 2.0?
 - Blog
 - Wikis
 - Moodle
- ⦿ Web 2.0 tools in the classroom
- ⦿ Social networking

Skills for the 21st Century

- Creativity and Innovation
- Critical Thinking and Problem Solving
- Communication and Collaboration

Highly educated workforce + strong technology infrastructure = foundation for success in knowledge economy *

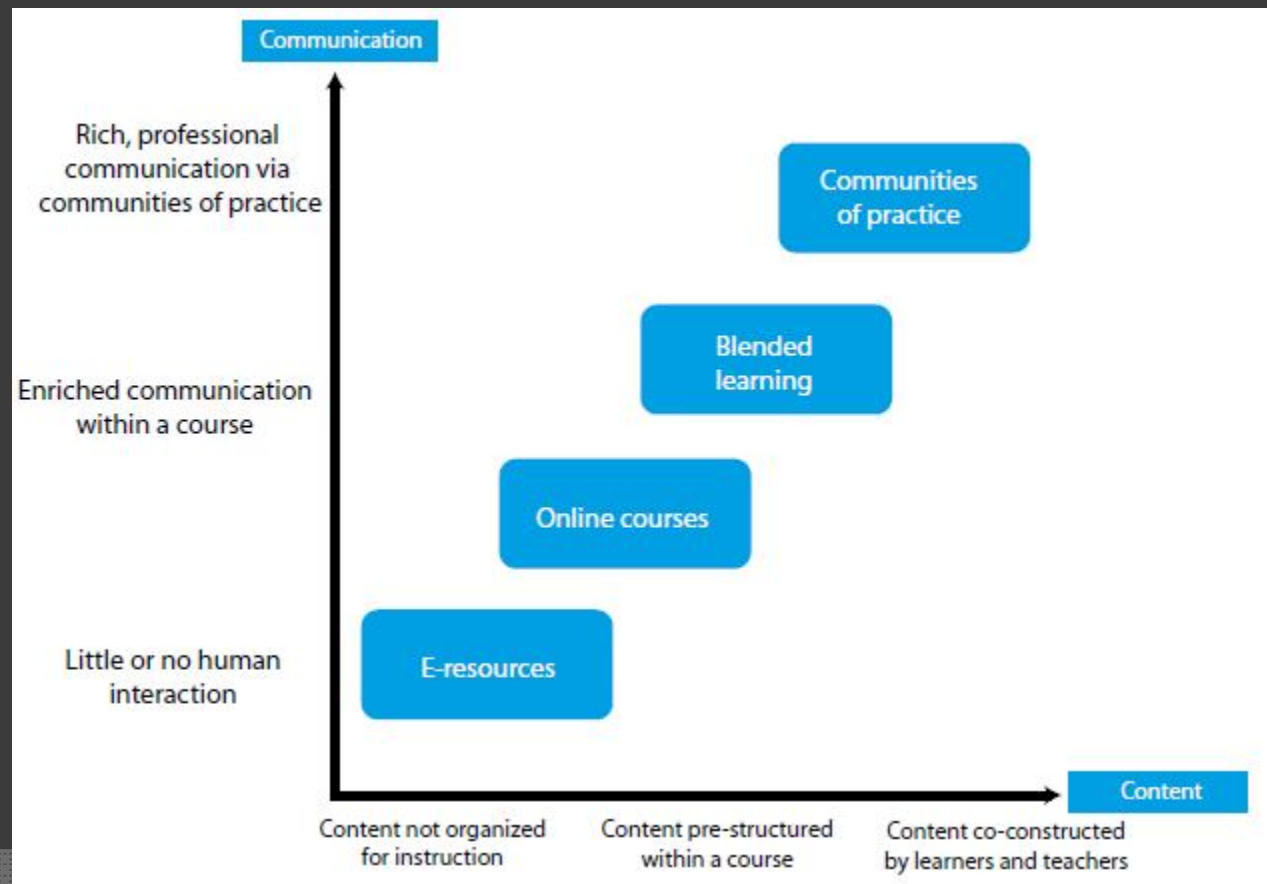

* UNESCO's Economic and Social Commission for Western Asia, the CEO Forum's School and Technology Readiness Report, Educational Testing Service's Center for Global Assessment have identified key skills necessary for success in the knowledge economy—called 21st century skills
"eLearning untuk Kecakapan Abad ke-21"

Arya Sanjaya, Intel Indonesia Corporation, Solo, 11 April 2009

What is Blended Learning?

Blended Learning

- Blended learning courses, offer a blend of online content and face-to-face contact with the instructor

What is Web 2.0?

Web 2.0

- ⦿ Web 2.0 is not a new version of the World Wide Web and it does not refer to any updated technical specifications.
- ⦿ Web 2.0 refers to a new wave of web applications that followed the dot. com bubble of 1997–2001.
- ⦿ A new wave of web applications began to appear in 2004 onwards. These allow users to create and share information on the web and to collaborate with others interactively. Users require no special skills to do this

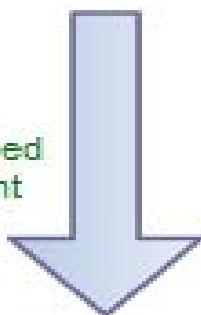

Web 1.0

"the mostly read-only Web"

250,000 sites

published content

user generated content

45 million global users

1996

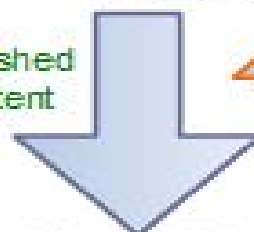

Web 2.0

"the wildly read-write Web"

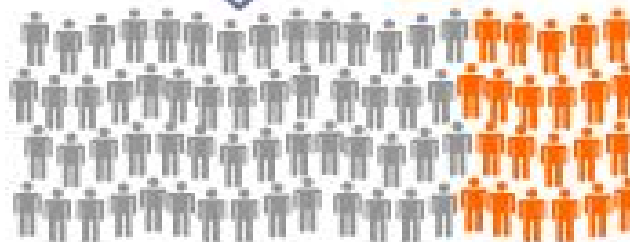

80,000,000 sites

published content

user generated content

1 billion+ global users

2006

Web 2.0

Blogs

Blogs

- ⦿ a blog (short for weblog) described as personal electronic diaries or journals, but blogs can take many forms.
- ⦿ Blogs usually consist of text but they can also contain photos and multimedia files (video and audio). If they contain mostly photographs, they are termed *photoblogs*; if mostly video, they are called *vlogs*; and if mostly audio, *podcasts*.
- ⦿ Blogspot, wordpress, blogsome etc
- ⦿ Blog Search (<http://blogsearch.google.com.au>) to locate bloggers

Renungan Ayat

Sesungguhnya orang-orang yang beriman ialah mereka yang bila disebut nama Allah gemetarlah hati mereka, dan apabila dibacakan ayat-ayatnya bertambahlah iman mereka (karenanya), dan hanya kepada Tuhanlah mereka bertawakkal. (QS Al Anfaal:2)

Dzikir Yang Ringan di Mulut Berat di Timbangan dan disukai Allah

Posted on Februari 3, 2010 by mromi

عَنْ أَبِي هُرَيْرَةَ، قَالَ قَالَ رَسُولُ اللَّهِ صَلَّى اللَّهُ عَلَيْهِ وَسَلَّمَ: كَلِمَتَانِ حَفِيفَتَانِ تَلَى اللِّسَانَ، ثَقِيلَتَانِ فِي الْمِيزَانِ، حَبِيبَتَانِ إِلَى الرَّحْمَنِ سُبْحَانَ اللَّهِ وَبِحَمْدِهِ. سُبْحَانَ اللَّهِ الْعَظِيمِ

Hadis riwayat Abu Hurairah Radhiyallahu'anhu, ia berkata: Rasulullah Shallallahu alaihi wassalam bersabda: Dua kalimat yang ringan untuk diucapkan, tetapi berat dalam timbangan dan disukai oleh Allah Yang Maha Pengasih, yaitu: "Maha Suci Allah dengan segala pujian-Nya dan Maha Suci Allah Tuhan Yang Maha Agung

Hebat! Pelajar SMP jadi Blogger

June 3rd, 2009 ayad No comments

Anak SMP Bisa Kelola Situs Sekolah Sendiri

Adaptasi dari Detikcom

Decak kagum meluncur dari mulut seratus-an tamu undangan yang hadir saat peluncuran situs SMP Negeri 2 Bandung. Bagaimana tidak, situs resmi sekolah itu murni dibuat oleh siswa-siswi SMP tanpa campur tangan orang dewasa.

Jangan Memandang Enteng Mereka

Adalah Muhammad Syaiful Islam, Rizalul, Nugraha, Siti Balqis, Qori, Mujadi dan Dimas. Mereka semuanya adalah murid kelas 7, hanya Dimas yang kelas 9. Didampingi Andri Oktaviana, guru Teknologi Informasi dan Komunikasi (TIK) mereka, ketujuh siswa ini menuturkan pengalamannya membuat dan mendesain web sekolah mereka kepada detikINET.

"Nggak susah kok, gampang. Kita cuma sebulan membuat situs ini," ujar Dimas polos.

Pendapat Dimas pun diamini oleh Andri, menurutnya dirinya hanya mengarahkan siswa-siswi tersebut tanpa berperan lebih banyak lagi. "Total pengerjaan selama sebulan. Hanya 5 kali pertemuan dan hanya 2 jam saja tiap kali pertemuan. Mereka belajar dan mengembangkan sendiri," aku Andri.

Menariknya, di SMP yang masuk dalam kategori cluster 1 di Kota Bandung ini belum ada ekstrakurikuler TIK. Dan untuk siswa kelas 7, pelajaran TIK hanya pengenalan tentang internet saja. Tidak sampai pada aplikasi dan hal-hal yang rumit lainnya.

"Cuma pengenalan internet saja. Jadi ternyata mereka belajar di luar. Dan sangat luar biasa perkembangannya. Tanpa perlu diajarkan secara teknis bagaimana mengelola situs, mereka sudah mampu," papar Andri.

Rencananya situs tersebut akan langsung dikelola oleh siswa siswi SMP Negeri 2 Bandung. Pihak sekolah terus mendidik generasi muda dengan internet.

Happy birthday sweetly

My dearest angel, zahra,
today reminds me of solemn
and blessed day
cos finally you came into this world
for me to hold, love and care.

Happy birthday sweetly.

May inner n outer beauty always reside in you.

In a grammar lesson

Kang Centung was sitting in his English class. It was a hot afternoon and he was feeling sleepy. It was a grammar lesson. Kang Centung was bored. He hated grammar. He wanted to leave school and work. He wanted to be a gardener. He looked out of the window. He looked at the trees and flowers. Then he started day-dreaming.

After 10 minutes the teacher stopped talking. She asked the students to do a grammar exercise in their book. She saw that kang Centung wasn't doing the exercise, so she said, "Why aren't you writing, Tung?"

Kang Centung stopped dreaming and said, "What, Miss?"

"Wake up, Tung!" the teacher said. "Why aren't you writing?"

Kang Centung thought for a moment and replied in English, "I ain't got no pencil."

The teacher looked at Kang Centung and corrected his grammar mistake. "I ain't got no pencil? You mean. You don't have a pencil?"

Kang Centung did not understand the teacher, so he said, "Sorry, Miss."

The teacher reviewed the use of doan't and doesn't in an angry voice, "I don't have a pencil. You don't have a pencil. He doesn't have a pencil. She doesn't have a pencil. We don't have pencils. have pencils. Now, do you understand, Tung?"

Kang Centung looked at the teacher for a moment and then he said, "Oh my God, What happened to those pencils, miss?"

DALAM SEBUAH KELAS TATA BAHASA

Kang Centung sedang mengikuti kelas bahasa Inggris. Slang itu panas dan dia merasa ngantuk. Pelajarannya tata bahasa. Kang Centung...

Situs LMS/elearning Indonesia Gratis

Maka tidak bisa dikatakan sebagai free hosting untuk elearning, namun situs ini memungkinkan siapa saja mempunyai sebuah course/pelatihan/modul online dengan mendaftar di situs ini. Situs ini dikembangkan oleh "Asyq Subandar", sehingga guru bisa mempunyai materi online di sini. Alamat situsnya adalah : <http://rombel.net>

platform LMS-nya menggunakan Moodle, sehingga bisa digunakan untuk menampung konten/modul pembelajaran hasil dari cKc

Untuk mendaftar, klik Login, kemudian "create a new account" setelah itu tunggu email konfirmasi, kemudian klik link yg ada di email tersebut untuk aktifasi, setelah aktif kita bisa login.

ketika login, status kita masih siswa, agar "dinaikkan" menjadi teacher sehingga bisa membuat course/pelajaran, harus mengirim email : username anda ke: rguru@rombel.net Semoga bermanfaat

Wikis

Wikis

- Like this online encyclopedia, wikis are websites that anyone within a community of users can either add content to or edit existing content
- As with blogs, if teachers want to set up a wiki, the first step is to find a website that provides the necessary service, that is, contains wiki software to enable contributions and editing of content, and also permits storage space — to hold the content that a group collectively and interactively constructs.
- One such company that provides a free, easy-to-use, hosting service is Wetpaint (<http://www.wetpaint.com>).

Wikipedia

The screenshot shows the Wikipedia interface for the article 'Information technology'. At the top, there are navigation tabs for 'article', 'discussion', 'edit this page', and 'history'. A 'Sign in / create account' link is in the top right. A banner at the top center says '42,535 have donated' with a 'Read more' button. Below this, a message encourages users to help Wikipedia change the world, mentioning a New Year's gift match. The article title 'Information technology' is prominently displayed, followed by a note that it is redirected from 'Information and Communications Technology'. A 'This article lacks in-text citations' warning box is visible. The main text defines Information Technology (IT) as the study, design, development, and implementation of information systems, particularly software, electronic computers, and computer-aided information security. It notes that IT has become popular due to electronic communication and is closely related to Communications Technology and Telecommunications. The text also mentions that IT professionals perform various duties, including data management, networking, engineering, computer hardware, database, and software design, as well as the management and administration of entire systems.

Moodle

Moodle

- ⦿ Moodle is a Web 2.0 tool developed in the Asia-Pacific region, in Perth, Australia. The application, designed specifically for educators, is a CMS, also called LMS or VLE
- ⦿ The Moodle website (<http://moodle.org>)
- ⦿ Moodle : Modular Object-Oriented Dynamic Learning Environment.
- ⦿ Moodle is a powerful and popular learning management system that is widely supported internationally.

Web 2.0 tools in the classroom

Web 2.0 tools in the classroom

- ⦿ Some teachers portrayed in the article use blogs in their classrooms. When students write blogs, they obtain the satisfaction of receiving feedback from fellow students.
- ⦿ This, in turn, encourages them to write more carefully about what they are learning, and often at greater length than they would do on paper

Web 2.0 tools in the classroom

- ⦿ another teacher uses wikis, which are sometimes more useful than blogs where a whole class is contributing information. This teacher's students formed teams and by means of wikis collaboratively constructed lists of resources for studying as they prepare for a test.

Web 2.0 tools in the classroom

- ⦿ Many institutions use it as their platform to conduct fully online courses, while some use it simply to augment face-to-face (known as blended learning).
- ⦿ Many of our users love to use the activity modules (such as forums, databases and wikis) to build richly collaborative communities of learning around their subject matter (in the social constructionist tradition), while others prefer to use Moodle as a way to deliver content to students and assess learning using assignments or quizzes.

Social networking

Social networking

- Of all the new innovative Web 2.0 tools, runaway successes are social networking services that connect people who share personal or professional interests, or who go to the same school or college, or who otherwise wish to join friendship groups
- two of the most widely accessed internet sites currently are Facebook and Twitter
- users can freely avail themselves of services to place personal profiles of themselves, share their profiles with others who have similar interests and thus create social networks, link with friends, and exchange news, photos and other information.

- Friends, Group
- Notes, Links

The screenshot shows a Facebook profile page for Wahyu Purnomo. The top navigation bar includes the Facebook logo, a search bar, and links for Home, Profile, and Account. The left sidebar contains navigation options: News Feed, Messages (1), Events (2), Photos (1), Friends (36), Applications, Games, Groups (117), Profile Playlist, Notes, and Links. The main content area features a notification to connect to Facebook via SMS, a News Feed section with a search bar and a 'Top News' filter, and a 'Requests' section with 7 friend requests, 2 event invitations, 31 friend suggestions, and 262 other requests. The News Feed shows a post by Titi Suprihatini about Retno Sulistyningrum, a friend request from Dwi Angger Recca and Syamsul Arifin, and a photo tag for Dedi Prasetyo and Jaresa Adilla E. The right sidebar includes 'Suggestions' for Joko Priyanto and Rara Andri Rara, and a 'Sponsored' section with a 'Thank you Wahyu' message. The bottom of the page shows a taskbar with several open browser tabs and a 'Done' button.

Facebook as a classroom tool

The following regional snapshot from Malaysia of the use of Facebook as a classroom tool:

- Teachers started providing notes and linkages on topics of interest within the school curriculum. A history teacher uploaded a video file on the history of Egypt for students to view in their own time. A math teacher uploaded examples of old exam questions for students to try out on their own
- There was even a competition to create online quizzes by the students using Facebook's Quiz application. Online discussion, notes and sharing of files are common activities among the teachers and students.

Facebook as a classroom tool

- ⦿ The Facebook site created for these groups of students has become an extended learning time for the students and their teachers
- ⦿ The communication between members of the group is almost instantaneous and any information can be shared and made available to all members of the group.

Facebook as a classroom tool

The national agency in Australia set up to support the integration of ICT in teaching and learning (education.au) states that online social networking sites enable educators to:

- create and edit an online professional profile;
- connect with educators who have similar interests;
- share links, news, photos, ideas, opinions and blogs; and
- join or create their own communities of interest to share ideas about education practice, research or issues.
