## Comprehension

### Read this passage and answer the questions below:

Nobody can live without food. Food is important to keep people alive. People can go on wars to protect their food or to steal other people's food. Some countries spend a lot of money to buy food but others can have food in cheap ways.

Shapes of food are different; they are not the same everywhere. This happens because people are different in many things such as types of cooking, habits of eating, the materials used to make food and sometimes because of religion. Muslims for example do not eat pigs.

In the past, people used to eat at home but nowadays we have a big list of restaurants that offer many types of food. Also, we can eat special dishes from many countries. The most famous dishes are the Italian like pizza and macaroni, the English like burger and hot dog and the Mexican Fahita. But the most amazing thing is the sandwich with all of its shapes. The Arabian food is very delicious too. Here in Kuwait, people like to eat Brianny with meat and Hamoor.
