.....

b. How can we alleviate common cold naturally?

.....

I-Composition

A- You are in a safari trip: your car broke down. You are 450Km far in the desert and you have a quadbike. Write a paragraph of '12 sentences' to describe the situation and what you are going to do. You may use the following guide words:

[prepare – for – safari / take – everything – need / put – survival equipment / engine – stop-work/ be – serious – trouble / not able – use – mobile phone/ use – quadbike / take – important – things/ reach – near – point – road/ ask- others – help/ return – fix – car]

II- Comprehension

Everyone dreams , but some people never recall their dreams, or do so very rarely. Other people always wake-up with rich collections of their dreams, though they forget them very quickly.

Scientists can detect when someone is having a dream by using an instrument which measures the electrical waves in the brain. Breathing and pulse rate also increase.

Dreams take the form of stories, but they may be strange and with incidents not connected; most of **them** about people and things we know. Vision seems an **essential** part of dreams , except for people blind from birth. Sound and touch are senses also often aroused. In normal dreams, the dreamer may be taking part , or be only an observer. But he cannot control what happens in the dream.

A: Choose the correct answer from a, b and c: (4 x ½ = 2 m)

1- The best title for this article is

- a) noisy nightmares b) sleeping and relax c) concept of dreams

2- The underlined word "**essential**" means

- a) unnecessary b) important c) small

3- The underlined pronoun "**them**" refers to

- a) dreams b) incidents c) people

4- The main idea of the second paragraph is

- a) breathing and pulse b) measuring dreams c) having a dream

B) Mark (√) or (x) next to each statement: (3 x 1 = 3 m)

5- The dreamer may participate in his dreams. ()

6- All people wake up in their dreams. ()

7- Dreams are similar to stories. ()

C) Answer the following questions : (3 x 1 = 3m)

8- How can a scientist detect dreams?

.....

9- What are most of our dreams about?

.....

10- What happens in normal dreams?

II-Spelling (5m)

A) Circle the mistakes and write them correctly: (4 x 1/2 = 2m)

Sometimes a whesetl can be a way to servaiiv.

- 1-
- 2-

We expireance problems in various sitwaitions.

- 3-
- 4-

B) Write the short or long form: (3x 1/2 = 1 1/2m)

1- Km = arenot =

2- I will =

C) Combine the following: (3x 1/2 m= 1 1/2m)

3- generate + ing = priority + s =

4- induce + ed =

III-Puctuation (2m)

in the bag were the following scissors hairbrush and a book

III-Translation (2m)

Mobile phone and other electronic gadgets contain metals so don't throw them . Send it to a recycle centre.

Unit 8 Solving problems

Determined		Inspire	
Disability		Engage

.....

b. How can a computer be harmful?

.....

33. “ Before you can solve a problem , you must first understand it.”

a. What are the strategies of problem-solving ?

.....

b. How can we improve thinking skills?

.....

II- Comprehension

Centuries ago, world population was low, cities were small and there were few factories. A little smoke rising into the air, or some household rubbish thrown into a river or a lake, didn't matter very much.

But now, the world population is large and is growing rapidly. Moreover, we are encouraged to use more things. So, we **manufacture** more, causing more pollution. Many products are now made of plastic: we can't destroy **them** when no longer need them without causing even more pollution.

Cars and other vehicles choke roads. We breathe in their exhaust fumes daily. Countless generating stations and factories fill the atmosphere with gases and dump their poisoned waste into rivers and oceans.

A: Choose the correct answer from a, b and c: (4 x 1/2 = 2 m)

- 1- The best title for this article is
- a) modern industries b) history of pollution c) burning gases
- 2- The underlined word "**manufacture**" means
- a) give b) invent c) produce
- 3- The underlined pronoun "**them**" refers to
- a) products b) vehicles c) stations
- 4- The main idea of the last paragraph is
- a) saving money b) saving products c) saving the planet

B) Mark (√) or (x) next to each statement: (3 x 1 = 3 m)

- 5- Pollution is more dangerous now. ()
- 6- Only factories and stations throw gases. ()
- 7- Plastic products are easy to get rid of. ()

C) Answer the following questions :

8- What will happen if we don't fight pollution?

.....

9- There are many causes of pollutions . Mention two.

.....

II-Spelling (5m)

A) Circle the mistakes and write them correctly: (4 x 1/2 = 2m)

The cawnsellor proumesed to solve the problem.

1-

2-

2-It is a chellaneg to finish this braenteaser.

3-

4-

B) Write the short or long form: (3x 1/2 = 1 1/2m)

5- You've =

6- I'd like =

7- Do not =

C) Combine the following: (3x 1/2 m= 1 1/2m)

8- worry + ed =

9- reply + s =

10- see + ing =

II- Comprehension

Sparrow is a small bird which is found throughout the world. There are many different species of sparrow. Sparrows are only about four to six inches in length. Many people like their beautiful song. Sparrows prefer to build their nests in low places. Their nests are usually built on the ground, low trees and buildings holes. They rarely build their nests in high places. They build their nests of grass and the nest is usually small and well-built.

A female sparrow lays four to six eggs at a time. The eggs are white and they hatch within eleven to fourteen days. Both the male and female parents care for the young. Insects are fed to their young after hatching.

Sparrows can be found almost anywhere there are humans. Although most of them stay in one area, Some sparrows migrate in winter. The older adult males of the migrating sparrows usually spend their winters near their area. Many people all over the world enjoy these delightful birds.

A) Choose the suitable answer from a), b) and c):

1. The underlined pronoun “**They**” refers to.....
a) buildings b) sparrows c) people

II- Comprehension

An earthquake is a trembling of the earth's surface. Earthquakes are caused by natural forces within the earth itself. When the earth's plates move, they cause great force leading to an earthquake.

About a million earthquakes are recorded each year, but the majority cause little or no damage. Cities are in great danger, particularly if they are built on soft ground. Most deaths and injuries are caused by collapsing buildings or the fires that often follow.

Strange as it may seem, a skyscraper may be the safest place to be in the earthquake. Many skyscrapers have been left standing after major earthquakes. This is because a skyscraper is built on a steel framework which can sway in the trembling rather than a tree in the wind.

Most earthquakes occur under the ocean bed. Many of them are harmless, but sometimes tidal waves are set up on the surface which grow to become walls of water causing great damage to coastal cities.

A: Choose the correct answer from a, b and c: (4 x ½ = 2 m)

1- The best title for this article is

- a) tidal waves b) safe scrapers c) dangers of earthquakes

2- The underlined word "sway" means

- a) move from side to side b) stand in one place c) fall down

3- The underlined pronoun them refers to

- a) oceans b) waves c) earthquakes

4- The main idea of the first paragraph is

- a) injuries b) causes of earthquakes c) trembling surface

B) Mark (√) or (x) next to each statement: (3 x 1 = 3 m)

5- Earthquakes happen only in the sea. ()

6- Coastal cities are safe during earthquakes . ()

7- The majority of earthquakes are dangerous. ()

C) Answer the following questions : (3 x 1 = 3m)

8- When do tidal waves happen?

.....

9- Why are skyscrapers safe during earthquakes?

.....

10- What dangers follow earthquakes?

.....

III-Punctuation (2m)

A-Punctuate the following: (4 x 1/2) = 2 m)

hamad is absent today isnt he

.....

III-Translation (2m)

The silk road was an ancient route which connected the countries of Asia and Europe . It was used between about 500 and 1300 AD.

.....

Unit 11 New vocabulary

Wealthy		butler	
modest		Dusty	
Affluent		residence

(happiness – important – life – enjoy – simple – healthy – sport – good habits – money – family – friends – food – expensive – serotonin).

.....

.....

II- Comprehension

Overweight is a serious problem. Many people in Kuwait suffer from overweight. The reason is that they eat too much food without **practising** exercises or having a diet.

When we eat too much, the extra food is stored as fats instead of burning up as energy.

Overweight people try hard to be slim but they don't do so in the right way, why?

They buy different kinds of food and medicine prepared specially for slimming. These food and medicine are very expensive and rarely make them fitter.

The right way to be slim is to eat less and do exercises. When a person eats less and does exercises, the body is forced to burn up the fats which are stored under the skin, however it's dangerous to eat less.

To keep fit and healthy, you should eat less starchy نشويات food such as bread, potatoes, rice, macaroni, sugary food like cake and chocolate. Fish, eggs, milk, green vegetables and fresh

fruit will make you healthy and slim because they contain the vitamins , minerals , fats and proteins . This is what we call "The balanced diet".

A)-Choose the best completion from a, b and c:

1- The best **title** for this passage is -----.

- a) fast food b) keeping fit c) kinds of food

2-The word **practising** in line two means -----

(Friendship – important – life – keep – secret – honest – cheerful – loyalty – respect – clever – share – activities – games – study).

.....
.....
.....
.....
.....
.....

II- Comprehension

No one ever expected the little Thomas Edison to be the man with countless inventions except his father. As usual his genius was taken by his teachers for madness. Most of the child's experiments often ended in a fire, a good beating from his father and depriving from his pocket money. One night, his mother suddenly fell ill and because his father was absent, the child called a doctor who examined the lady and said that she needed urgent surgical operation. But the light being dim, he would not be able to operate and prepared to leave. The child grew mad and begged the doctor to wait. He quickly ran to the barber's shop nearby and got a big mirror. He then brought all the oil lamps found in the house and lit them in front of the mirror.

Amazed by the child, the doctor performed a successful operation. While he was carrying the mirror back to the barber's, it fell and broke into pieces. So the barber beat him severely. When his father came back, Thomas told him the whole story and together went to the barber, paid him fourteen dollars he demanded for the mirror and paid him back the beating he gave to his son.

A) Choose the correct answer from a, b and c:

1- The best title for this passage is

a) clever boy

b) bad doctor

c) successful operation

2- The underlined pronoun "he " refers to.....

- a) the child
- b) the doctor
- c) the barber

3- The underlined word "dim "means

- a) shining
- b) quiet
- c) not bright

4- The event of Edison's mother's illness proved.....

- a) Edison's madness
- b) Edison's genius
- c) laziness

B) Mark with a (√) if true or an (X) if false:

5- Edison's teachers didn't take his genius for madness. ()

6- Edison's experiments usually ended successfully. ()

7- Edison was a man with countless inventions ()

8- Edison's father was absent when his mother fell ill. ()

9- The barber's shop was very far from Edison's house. ()

C) Answer the following questions in reference to the passage:

10- Why did the doctor want to leave without doing the operation for his mother?

.....

11- When did Edison break the mirror ?

.....

12- How did Edison's father solve the problem between him and the barber?

.....

II-Punctuation

A-Punctuate the following: (4 x^{1/2}) = 2 m)

1. Did you finish your homework

2. No i didn't.
